

July 22. Last Friday Night the House of the Widow Ten Eyck, in Broad-street, was broke open by some Rogues, who search'd all the House, whilst the People were asleep, and took away the Shop Drawer with about 30*l*. in Money in it, but nothing else that could be miss'd. The Villains also left the Tongs with a Cole of Fire on the Floor, probably with a Design to set the House on Fire, but by good Providence it went out.

Extract of a private Letter from London, dated May 19, 1751.

...The Parliament has granted the Prince of Wales *£*. 40,000 a Year to support his Household:—The Bill for regulating the Currency in America, is very likely to pass, tho' the Council to be heard about it, has been put off from Time to Time. It is remarked, that when the American Affairs come under their Consideration, great Numbers of the Members withdraw, and scarcely leave enough to make up a House:—'Tis thought they will not rise till June or July.

There never was such Weather known since the Memory of Man, for cold and wet, and 'tis computed that upwards of 600,000 Acres of Land remain unsowed thereby; many Sheep and Lambs dying; one Farmer only has lost 400 Lambs, and Mutton has rose here a Penny a Pound within these few Days; and 'tis said there is going to be an Embargo on Grain. Great Complaints from France, of Damage done by the late Floods. Sundry Men of War have lately been put into Commission, and great Subscriptions made towards the British Fishery, of which his Royal Highness Prince George is elected Governor. Commodore Rodney is appointed Governor of Newfoundland, and sails in a few Days for that Place.

PHILADELPHIA, July 25.

Last Sunday Evening we had a Gust of Rain and Thunder, when the Lightning fell on the House of John Guy, Carter, near Society Hill, beat that Part of the Chimney which was above the Roof, all to Pieces, flinging the Bricks on all Sides the House; went down the Wall to his Stable adjoining, and therein kill'd four Horses. Fragments of the Wall within the House were also torn off and driven about the Rooms; but did little other Damage than breaking some Panes of Glass, the Woman and Children being unhurt, and the Man only somewhat deafened with the Noise.
